

MANAGING FOOD ALLERGIES AT SCHOOL

Back to school can be overwhelming, scary and frustrating at times, especially when you are dealing with severe food allergies. But it's manageable! Local food allergy mom Joni Severson and her son Rafer, who is now in 9th grade, will share back to school experiences, lessons learned, and tips for navigating elementary school, middle school, and high school with severe food allergies. Join us for an evening of information and encouragement!

**JOIN US ON MONDAY,
October 7, 2019
6:00 TO 7:00 PM**

**Boulder Medical Center
- Broadway
2750 Broadway
